Thanks Ashley!

Does our Planning Group need to formally request that the notification area be expanded?

A 1 mile radius seems more appropriate given the open and rolling landscapes and the fact that Tierra Del Sol is the only public access road in the area.

Some property owners in the area will not have a legal alternative route option to drive around the project.

Hi Donna,

Attached is the list of neighbors who were notified of the Tierra Del Sol project. This was generated from a 600-foot radius.

Please let me know if there are additional individuals who would like to be added to the notification list for this project and I will ensure they are added.

Thank you,

Ashley

Hello Ashley,

At our Sept 6th Boulevard Planning Group meeting, at least 3 adjacent project neighbors claimed that they had not received formal notification of the project from the County.

I promised to follow up, so please send a list of the neighbors that were notified and the radius used for that notification.

I am still working on the comments for the Planning Group--not sure when I will get them in. So far, we have not heard any supportive comments from neighboring property owners. No surprise there...

Thanks,
